For Kerry's Inbox:

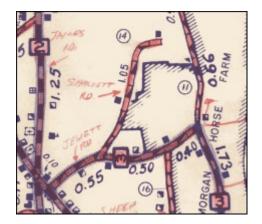

Current map is obviously not correct, though needs further investigation. Remeasurement also likely, and possibly reclassification (if not already done).

Subject:	Alignment of TH-14 (Cave Rd)

Good afternoon Brenda,

Thanks for taking the time to discuss the alignment of TH-14 (Cave Rd) with me earlier today! While updating the surfacetype data for Cave Rd, I compared the most recent map (see the 2015 Town Highway Map excerpt below) with older maps (also pasted below) and noticed that there was a curious evolution of how TH-14 has been mapped considering that there has only been one "official" mileage change carried out by the Selectboard that we are aware of. That change is documented on the 1963 Mileage Certificate, but the discontinuance may have legally occurred in 1969 (see attached documents).

I'm therefore reaching out to the Town of Weybridge in order to get some clarification about the alignment of TH-14, particularly whether it includes the entire loop at the end of Cave Rd, only the portion of that loop that follows the original TH-14 layout (which coincides with the paved portion), or possibly another alignment such as that indicated in the Weybridge tax map data. (See attached maps).

Based on the evolution of how TH-14 has been shown on the Town Highway Map,

- 1. Does the segment labeled "Discontinued" in Map 1 match the description in the 1969 discontinuance document?
- Was the rest of the loop at the end of Cave Rd ever formally dedicated to the Town and accepted or laid out as a Town Highway? (If so, could we have copies of any deeds and actions taken by the Selectboard?)
 3.

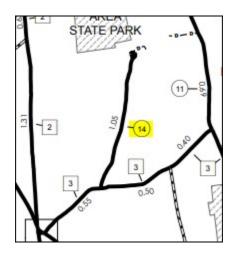

If there have been additional changes to TH-14, we'd like to make sure we are accurately reflecting them on the Town Highway Map. Similarly,

(See the "Original Layout" in Weybridge_TH14_alignment_questions.pdf). should reflect the original layout with a discontinued section,

I'm hoping that the Town of Weybridge can confirm whether or not the discontinuance mentioned above is the only legal change that has been made to the TH-14 right of way. If additional changes have been made, we'd o take into account any additional changes if the

Good afternoon Brenda,

Thanks for taking the time to discuss the alignment of TH-14 (Cave Rd) with me yesterday! I've written up my questions below, and have included maps and information from our records to help clarify those questions. Please feel free to respond by email or phone (802-917-2621). I would also be glad to answer questions you or the Selectboard might have.

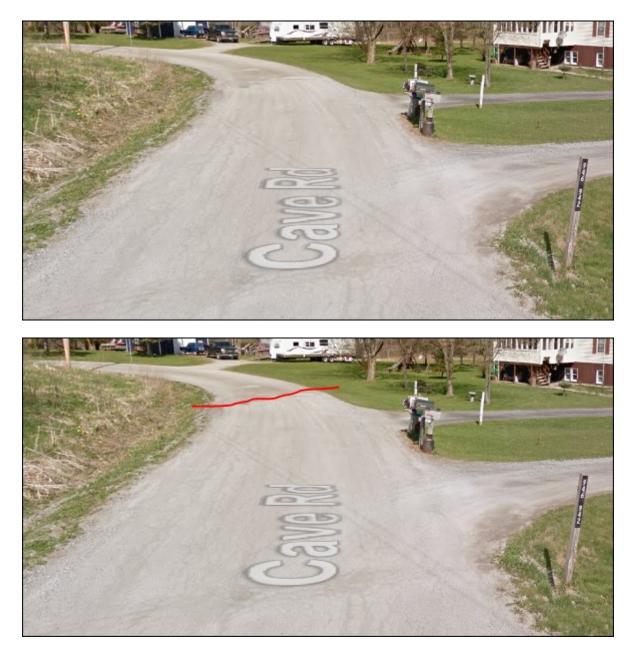

Thank you very much for your assistance in making the Town Highway Maps as accurate as possible,

Kerry

I recently noticed that Town Highway Maps have "evolved" over the years in how they represent TH-14 (Cave Rd), but there has only been one legal change to its right-of-way that we (in VTrans Mapping) are aware of. There is a partial discontinuance documented on the 1963 Mileage Certificate, and we have documentation for a discontinuance that legally occurred in 1969 (see attached documents: **Weybridge_Cert_1963.pdf** and **Weybridge_TH14_1969_PartialDisc.pdf**). There also seems to have been some confusion within VTrans about where TH-14 ended after the discontinuance (see the various map excerpts below), and whether the official measure of 1.05 miles corresponds to the same location that is described in the discontinuance. The extent of maintenance along TH-14 also may have changed a few times before the discontinuance occurred.

I'm therefore reaching out to the Town of Weybridge in order to get some clarification about the alignment of TH-14, particularly whether it includes the entire loop at the end of Cave Rd (including Lafontaine Ln), only the portion of the loop that follows the original TH-14 layout (coinciding with the paved portion visible in the Street View image below), or possibly another alignment such as that indicated in the Weybridge tax map data (see **Weybridge_TH14_Questions_Map4.pdf**).

The end of pavement along TH-14 (past the mailboxes, indicated with the red line in the second image, also see attached map **Weybridge_TH14_Questions_Map3.pdf**)

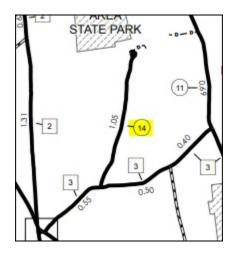

The most important questions:

- Does the blue segment on the attached maps (Weybridge_TH14_Questions_Map1.pdf and Weybridge_TH14_Questions_Map2.pdf) match the description in the 1969 discontinuance document? At the very least I am confident that it should be a single discontinued segment. Could someone also specifically confirm that the discontinued segment begins where the paved road ends, or provide me with a description of where it does end?
- 2. Was any portion of the loop at the end of Cave Rd (that wasn't part of the original TH-14) ever formally dedicated to the Town and accepted or laid out as a Town Highway? If so, could we have copies of any deeds and actions taken by the Selectboard?
- 3. Where does Cave Rd end and Lafountain Ln begin (independent of whether those sections are public or private)? Does Cave Rd end where the pavement ends, or does it continue to wrap around intersecting LaFountain Ln, or does LaFountain Ln wrap around and intersect Cave Rd? Is any part of Cave Rd still private?

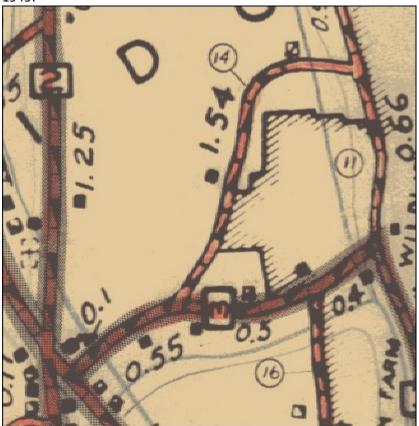

TH-14 as shown on the Current and Archived Town Highway Maps (full maps available here: https://vtrans.vermont.gov/planning/maps/town-maps)

TH-14 as shown on the Current Town Highway Map (2015):
