19 V.S.A. § 305. Measurement and inspection

§ 305. Measurement and inspection

(a) After reasonable notice to the selectboard, a representative of the agency may measure and inspect the class 1, 2, and 3 town highways in each town to verify the accuracy of the records on file with the agency. Upon request, the selectboard or their designee shall be permitted to accompany the representative of the agency during the measurement and inspection. The agency shall notify the town when any highway, or portion of a highway, does not meet the standards for its assigned class. If the town fails, within one year, to restore the highway or portion of the highway to the accepted standard, or to reclassify, or to discontinue, or develop an acceptable schedule for restoring to the accepted standards, the agency for purposes of apportionment under section 306 of this title shall deduct the affected mileage from that assigned to the town for the particular class of the road in question.

(b) Annually, on or before February 10, the selectboard shall file with the town clerk a sworn statement of the description and measurements of all class 1, 2, 3, and 4 town highways and trails then in existence, including any special designation such as a throughway or scenic highway. When class 1, 2, 3, or 4 town highways, trails, or unidentified corridors are accepted, discontinued, or reclassified, a copy of the proceedings shall be filed in the town clerk's office and a copy shall be forwarded to the agency.

(c) All class 1, 2, 3, and 4 town highways and trails shall appear on the town highway maps by July 1, 2015.

(d) At least 45 days prior to first including a town highway or trail that is not clearly observable by physical evidence of its use as a highway or trail and that is legally established prior to February 10, 2006 in the sworn statement required under subsection (b) of this section, the legislative body of the municipality shall provide written notice and an opportunity to be heard at a duly warned meeting of the legislative body to persons owning lands through which a highway or trail passes or abuts.

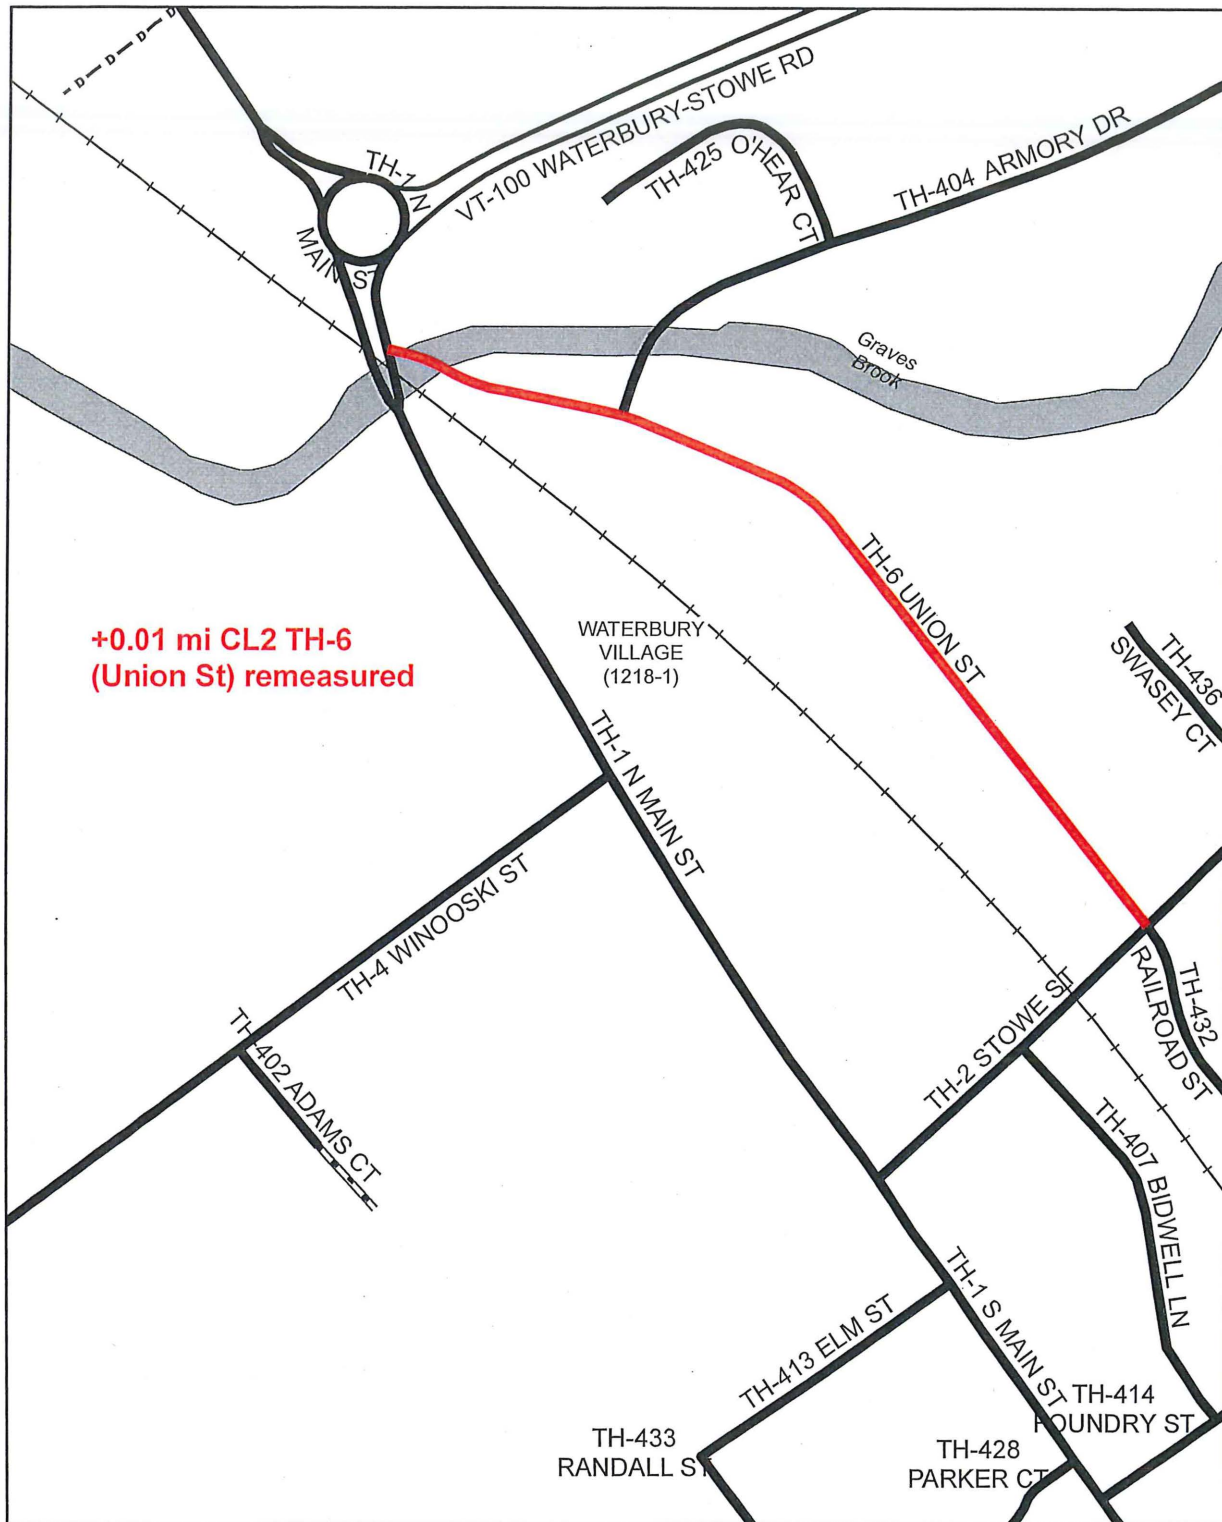

(e) The agency shall not accept any change in mileage until the records required to be filed in the town clerk's office by this section are received by the agency. A request by a municipality to the agency for a change in mileage shall include a description of the affected highway or trail, a copy of any surveys of the affected highway or trail, minutes of meetings at which the legislative body took action with respect to the changes, and a current town highway map with the requested deletions and additions sketched on it. A survey shall not be required for class 4 town highways that are legally established prior to February 10, 2006. All records filed with the agency are subject to verification in accordance with subsection (a) of this section.

(f) The selectboard of any town who are aggrieved by a finding of the agency concerning the measurement, description, or classification of a town highway may appeal to the transportation board by filing a notice of appeal with the executive secretary of the transportation board.

(g) The agency shall provide each town with a map of all of the highways in that town together with the mileage of each class 1, 2, 3, and 4 highway, as well as each trail, and such other information as the agency deems appropriate.

Kerry,

Thanks for the detailed explanation of what I need to do. Alec is the previous Public Works Director and I am trying to come up to speed on deadlines and other highway permit issues. When we get beyond town meeting day I will begin the formal process of reclassification of the portion of TH-56.

Thanks for your help.

Hi Bill,

The Certificate of Highway Mileage is required by State Statute, even if there are no changes. Please note that there is one change preloaded onto the Certificate. Union St (CL2 TH-3 in the Village) is being switched to CL2 TH-6 because another CL2 TH-3 already existed in the Town when the Village highways were merged the Town highways. Because this is minor change that does not involve mileage, the Feb. 20 deadline is not so critical, but please send it in as soon as it has the required signatures.

I've spoken with Alec Tuscany about Little Fox Forest Rd (TH-56) and River Rd (TH-434). Are you expecting to formalize changes to both of these highways this year? If so, and you send me copies of the documentation demonstrating that the changes were made following the statutory process, I can pre-load those changes onto next year's Mileage Certificate before I send it out in early January, 2017. Feel free to contact me with any questions you might have about the documentation.

Hello Kerry,

I was just handed some paperwork on the Certificate of Highway Mileage for the Town of Waterbury. It list a Feb 20 deadline to get the form in. We have not had any changes in mileage in the past year is it still necessary to fill this out? The only change we have still in the works is to change a portion of a Class 3 to Class 4. This .11 mile section we hope to have all the proper meetings and notifications done this year. Please let me know if I should still have the select board sign this?

Thank you,

Hello Kerry,

The town has not taken any action with regards to Little Fox Forest Road and River Rd. It was on my list of things to do this summer. I even loaded it into my calendar and it reminded constantly until I just moved on. I will hopefully tackle it this coming year and then we can have some accurate info. Thank you for the clarifications on Union Street.

Have a nice day.

Hello Bill,

I hope all is well with you this Holiday season!

I just wanted to touch base with you to see if Waterbury has taken formal action on the changes to Little Fox Forest Rd (TH-56) and River Rd (TH-434).

I also wanted to let you know that I pre-loaded one change onto Waterbury's 2017 Certificate of Highway mileage, which will be mailed out after January 1, 2017. I changed our data to not show a "Y" in Union St. (now class 2 TH-6) where it intersects the roundabout, resulting in a change of -0.01 mile. However, a historic inventory as well as our GIS data indicate that the length between Armory Dr. and Stowe St. should be 0.20 mile instead of 0.18 mile, for a change of +0.02 mile. The net change to Union St. is therefore +0.01, which has been pre-loaded onto the certificate.

If you have any questions, please don't hesitate to contact me!
