Editing Workflows

Workflow 1 (Page 3) – Editing/Verifying existing records

1. **Filter data** to show by Town and “Unverified”
2. **Select record** from “Closure List” or by clicking on it in the map
3. **Update** the “Closure Status” and verify the selected record in the Edit Menu
4. Optional – you can edit the location of the dot by clicking and dragging in the map

Workflow 2 (Page 7) – Adding new closure

1. **Add** new closure using the Edit Menu
 - Choose closure status icon from edit widget (Closed or Partially Open)
 - Navigate to closure area in map and click to place the dot
2. **Enter information** to data fields in the Edit Menu (Verified, etc.)

Workflow 1

Editing/Verifying Existing Records

Workflow 1 – Editing Existing Record

Select your Town:

Click on the “Town is” dropdown menu and click on your town name

The screenshot shows the VAPDA Town Roads - Closure Status interface. The 'Apply Town and Status Filter' section is active. The 'Town is' dropdown menu is open, displaying a search bar and a list of towns: - All -, ALBANY, ANDOVER, BETHEL (highlighted in teal), BOLTON, BRIDGEWATER, and BROOKFIELD. A red arrow points from the yellow text box to the dropdown menu.

Click on “Unverified” closures

This will filter the “Closures List” to only show records that you have not yet verified

The screenshot shows the VAPDA Town Roads - Closure Status interface. The 'Town is' dropdown menu is set to 'BETHEL'. In the 'Verified by Town is' section, the 'Unverified' button is selected and highlighted in teal. A red arrow points from the yellow text box to this button.

The screenshot shows the VAPDA Town Roads - Closure Status interface. The 'Apply Town and Status Filter' section is active, with 'Town is' set to 'BETHEL' and 'Verified by Town is' set to 'Unverified'. The 'Closure List' section displays a list of records, all of which are 'Unverified - Road Closed' for the Town of Bethel. A red bracket on the right side of the list indicates that only these records are shown. A yellow text box on the right explains this filtering.

Closure List	
Unverified - Road Closed	BETHEL - CLEVELAND BROOK RD (TH-51)
Unverified - Road Closed	BETHEL - CLEVELAND BROOK RD (TH-51)
Unverified - Road Closed	BETHEL - PEAVINE BLVD (TH-5)
Unverified - Road Closed	BETHEL - WHITTIER RD (TH-57)
Unverified - Road Closed	BETHEL - WOODLAND RD (TH-45)
Unverified - Road Closed	BETHEL - CLEVELAND BROOK RD (TH-51)
Unverified - Road Closed	BETHEL - CLEVELAND BROOK RD (TH-51)
Unverified - Road Closed	BETHEL - CLEVELAND BROOK RD (TH-51)

In this example, the “Closure List” is only showing “Unverified” records in the Town of Bethel

Workflow 2

Adding new closures

Workflow 2 – Add New Closure

1. Choose closure type

2. Navigate to closure location in map and click to add point

Workflow 2 – Add New Closure

The screenshot displays a mobile application interface for adding a new closure. On the left, an aerial map shows a road labeled "Mastons HI" and a blue circle with the number "1". A blue arrow points to a location on the map. On the right, a form titled "Create features" is visible. The form has a "Settings" section with a gear icon and a dropdown arrow. Below it is a "Town Verify" section with a dropdown menu for "Closure Status" (set to "Partially Open") and a dropdown menu for "Verified by Town". The "Details" section includes a date picker for "Inspection Date" (set to "MM/DD/YYYY"), a text field for "Town", a text field for "Town Highway Name", a text area for "Site Description", and a text area for "Damage Description". The "Additional Info" section has a dropdown arrow. At the bottom, there is an "Attachments" section and a blue "Create" button. Three yellow callout boxes with red arrows provide instructions: "3. Next, update the 'Verified by Town' field", "4. Enter additional details as desired", and "5. Click 'Create' button to save the new closure".

3. Next, update the "Verified by Town" field

4. Enter additional details as desired

5. Click "Create" button to save the new closure
