Subject: Mileage adjustment to Class 4 Town Highway TH-20

In reviewing our road centerline data, a discrepancy was noticed between the amount of mileage assigned to TH-20 and its actual length. In reviewing our records, it looks like the mileage was never adjusted after interstate I-91 was constructed in the early 1960's. Based on our interpretation of our data and orthophotos, we have determined that the mileage of TH-20 should be 0.14 instead of 0.31.

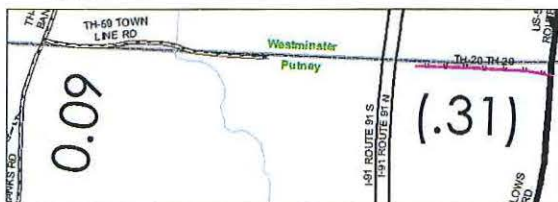

Excerpt from 1961 Town Highway Map

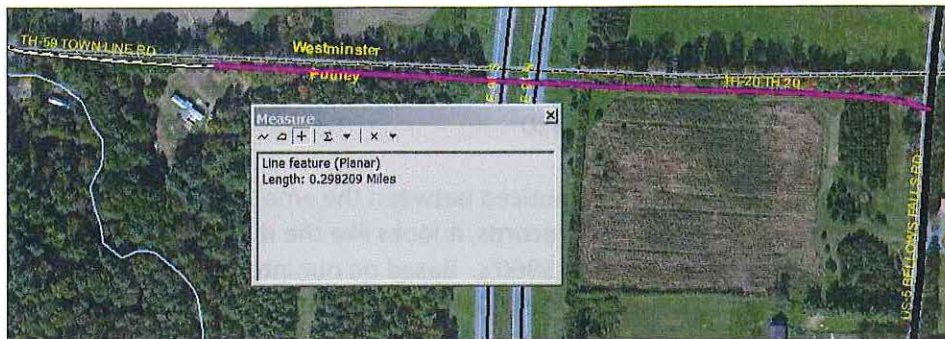

Excerpt from 1963 Town Highway Map

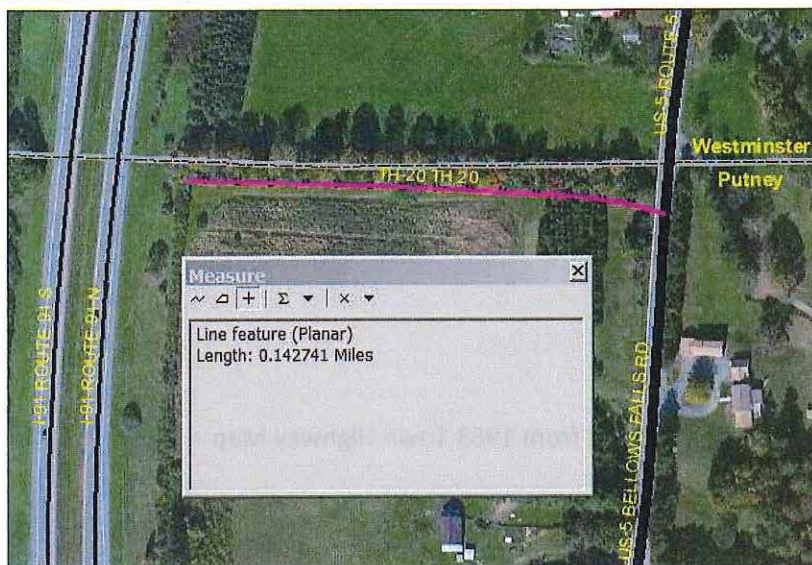

Excerpt from 2015 Town Highway Map

Excerpt from current GIS data showing extent of TH-59 in Westminister and TH-20 in Putney.

Excerpt from current GIS data showing a distance of about 0.30 miles if TH-20 in Putney was connected to Westminster's TH-59.

Excerpt from current GIS data indicating a distance of 0.14 miles for TH-20 as it is currently configured.

The VTrans Mapping Section is planning to address the mileage discrepancy during the 2016 Mileage Certificate process. If the Town disagrees with our interpretation of the situation, or has other information regarding it, please let us know. Otherwise, we plan to preload the mileage adjustment on the next Certificate of Highway Mileage which we expect to mail in early January.
