Comments:

I wanted to double-check on a question I have in follow up to your telephone call earlier this week. Do you want me to return the 2007 Certificate of Highway Mileage to you so you can record the TH-16 reclassification?

Also, you asked if a Certificate of Completion and Opening of a Highway for Public Travel was needed for reclassification of a Legal Trail to Class 3 town highway. I checked with my supervisor and he confirmed that the Town should submit a Certificate of Completion and Opening for that kind of reclassification.

Please let me know if you have any questions.

Thank you.

Comments: The only reference I can find regarding the reclassification of 0.16 miles of TH-16 to Legal Trail is a remark recorded in our Record of Mileage Changes. I've included a copy with this fax.

It was recorded in this document, in February 1988, that a 0.16-mile section of TH-16 was now Legal Trail. It looks like a notation that would have been prompted by the 1988 Certificate of Highway Mileage. Our in-office files of the certificates go back to 1993. If you want, I can ask our Central Files department to see if they have the 1988 certificate and its associated documentation.

Please let me know if you have any questions.

Thank you.

January 2007

Below is a table summarizing the information on Legal Trails that is on file in the Mapping Unit. Act 178 of 2006 requires the measurement of trails be included on the sworn statement, the Mileage Certificate. To assist in this, we are providing a summary of the information we have on the trails that are shown on the Town Highway Maps, including mileage and former town highway number. The majority of trails were created by the reclassification of a town highway into a trail, thus the legal trail inherited an official measurement. The former town highway number is included in the FORMER_RTNAME column, and the former town highway mileage is in the AOTMILES column for each trail. VTrans has assigned a trail number, such as LT-1, to make the trails distinct. If the AOTMILES column is zero, the municipality will need to provide a mileage. The column ARCMILES contains the mileage as generated by the geometry of the trail, as digitized in the Geographic Information System (GIS). The mileages included in this table should be used as approximate mileages and the municipality should measure or verify the mileage of these trails.

A map showing the Legal Trail numbers and mileage has been included with this packet to further assist in this project. Any additional trails that exist should be added to the Mileage Certificate, as defined in the provided guidelines. Please feel free to contact us with any questions or comments regarding the above information, or the Mileage Certificates in general.

HIGHWAY / LEGAL TRAIL IDENTIFIER (RTNAME)	AOTMILES	ARCMILES	FORMER TOWN HIGHWAY NUMBER (FORMER_RTNAME)
LT-1	0.16	0.13	TH-16

If you have any questions, please call me at 802-828-2109 or send email to sara.moulton@state.vt.us

Thank you.
