Sonia,

Based on review of records in Mapping, Westminster State Highway was added in 1964 and TH-5 was added to and renumbered the same year. The mileage for TH-5 was 3.07 in 1964 and is the same mileage on the 2004 map. Westminster State Highway was mapped as 0.915 miles in 1964 and is the same mileage on the 2004 map. Based on my assessment, the mileage has not changed since the roads were laid out or altered in 1964. The one item that does show more clearly on the older maps is a small section of Westminster State Highway west of I-91 Ramps A & B. This section is 68 feet (0.013 miles) and should be clarified when the next revision of the map is done. The total mileage for each route seems to be accounted for on each map.

If you have any additional questions regarding TH-5 or Westminster State Highway, please do not hesitate to ask.

Hi Jonathon,

This morning town officials and I met with Diane Colgan regarding property in Westminster. In the course of conversation, we learned that a section of road beyond the I-91 access ramps and Back Westminster Road was relinquished to the town in 1974. It appears that the section of road was never named nor has it been listed on the Westminster General Highway Map. It occurs to me that the mileage may be included in TH 5 (Back Westminster Road mileage). Can you help with this?

Best regards,
Sonia
