Below is a table summarizing the information on Legal Trails that is on file in the Mapping Unit. Act 178 of 2006 requires the measurement of trails be included on the sworn statement, the Mileage Certificate. To assist in this, we are providing a summary of the information we have on the trails that are shown on the Town Highway Maps, including mileage and former town highway number. The majority of trails were created by the reclassification of a town highway into a trail, thus the legal trail inherited an official measurement. The former town highway number is included in the FORMER_RTNAME column, and the former town highway mileage is in the AOTMILES column for each trail. VTrans has assigned a trail number, such as LT-1, to make the trails distinct. If the AOTMILES column is zero, the municipality will need to provide a mileage. The column ARCMILES contains the mileage as generated by the geometry of the trail, as digitized in the Geographic Information System (GIS). The mileages included in this table should be used as approximate mileages and the municipality should measure or verify the mileage of these trails.

A map showing the Legal Trail numbers and mileage has been included with this packet to further assist in this project. Any additional trails that exist should be added to the Mileage Certificate, as defined in the provided guidelines. Please feel free to contact us with any questions or comments regarding the above information, or the Mileage Certificates in general.
