## Vermont Statutes Annotated

### 19 V.S.A. § 305. Measurement and inspection

#### § 305. Measurement and inspection

- (a) After reasonable notice to the selectboard, a representative of the agency may measure and inspect the class 1, 2, and 3 town highways in each town to verify the accuracy of the records on file with the agency. Upon request, the selectboard or their designee shall be permitted to accompany the representative of the agency during the measurement and inspection. The agency shall notify the town when any highway, or portion of a highway, does not meet the standards for its assigned class. If the town fails, within one year, to restore the highway or portion of the highway to the accepted standard, or to reclassify, or to discontinue, or develop an acceptable schedule for restoring to the accepted standards, the agency for purposes of apportionment under section 306 of this title shall deduct the affected mileage from that assigned to the town for the particular class of the road in question.
- (b) Annually, on or before February 10, the selectboard shall file with the town clerk a sworn statement of the description and measurements of all class 1, 2, 3, and 4 town highways and trails then in existence, including any special designation such as a throughway or scenic highway. When class 1, 2, 3, or 4 town highways, trails, or unidentified corridors are accepted, discontinued, or reclassified, a copy of the proceedings shall be filed in the town clerk's office and a copy shall be forwarded to the agency.
- (c) All class 1, 2, 3, and 4 town highways and trails shall appear on the town highway maps by July 1, 2015.
- (d) At least 45 days prior to first including a town highway or trail that is not clearly observable by physical evidence of its use as a highway or trail and that is legally established prior to February 10, 2006 in the sworn statement required under subsection (b) of this section, the legislative body of the municipality shall provide written notice and an opportunity to be heard at a duly warned meeting of the legislative body to persons owning lands through which a highway or trail passes or abuts.
- (e) The agency shall not accept any change in mileage until the records required to be filed in the town clerk's office by this section are received by the agency. A request by a municipality to the agency for a change in mileage shall include a description of the affected highway or trail, a copy of any surveys of the affected highway or trail, minutes of meetings at which the legislative body took action with respect to the changes, and a current town highway map with the requested deletions and additions sketched on it. A survey shall not be required for class 4 town highways that are legally established prior to February 10, 2006. All records filed with the agency are subject to verification in accordance with subsection (a) of this section.
- (f) The selectboard of any town who are aggrieved by a finding of the agency concerning the measurement, description or classification of a town highway may appeal to the transportation board by filing a notice of appeal with the executive secretary of the transportation board.
- (g) The agency shall provide each town with a map of all of the highways in that town together with the mileage of each class 1, 2, 3, and 4 highway, as well as each trail, and such other information as the agency deems appropriate.

Good morning Almon,

Thank you for sending along the information regarding the missing piece of the Jennie Coolidge Road. At this point, we can't add this segment of highway until we receive the appropriate documentation to show the highway was legally established, either through the laying out process or dedication and acceptance.

The Selectboard can add this section of highway onto this year's Mileage Certificate and send it along with the supporting documentation and we will add the highway this year. Sara has outlined what information is needed in her previous email, which can be found below.

Please feel free to contact me with any questions or comments regarding this addition, necessary documents, or mapping in general.

Sorry for taking so long to get back to you. Yes the road measures 1.2 miles from Greendale road to FR17 and the purple line is .4 which equals the 1.6 on the map I can print the map and draw it on and send it to you. thanks Almon

In looking at our maps, I am wondering if you are referring to the purple line in the attached PDF map. If so, we do not have any record in our files of this being a town highway. It is in our data as a private road. In order for us to put it on the Town Highway Map, it needs to be added on the Mileage Certificate, and the following documentation needs to be submitted along with the Certificate:

- A copy of the minutes of meetings at which the legislative body took action with respect to the change.
- A copy of notices and hearings associated with reclassifications and discontinuances.
- A copy of the Certificate of Completion and Opening for new or altered highways.
- A copy of any surveys of the affected highway or trail (A survey shall not be required for class 4 town highways that are legally established prior to February 10, 2006.)
- A description of the affected highway or trail.
- A current town highway map with the requested deletion or addition sketched on it.

If I am looking at the wrong road, or if you have any questions about this, please let me know.

Good morning

I was looking over the certificate of miles and the map and noticed that the miles seem to be wright, but there is a short piece of Jenny Coolidge road from FR17 intersection missing on the map. What do we need to do to get this put back on. It is a short piece of class 3 rd and is not plowed in the winter but maintained in the summer. Thank you for your time. Almon Crandall

Vermont Agency of Transportation,

Map printed in 1986 is correct, as you can see on other the enclosed map the road that is highlighted with the red line drawn on it, this road was eliminated on the map. It should be on the map. The mileage is correct just the .4 mile of road is no longer on the map as it should be.
