Dear Mr. Harvey,

As of December of 1996, .29 miles of West Windsor TH 26 was upgraded to meet Class 3 highway standards. This mileage was subtracted by the AOT in 1992. Although the enclosed minutes state that the upgrade was not quite complete as of 12/3/96, the work was completed within the following few days. The highway foreman can report on the completion of the upgrade at the next Selectboard meeting in March, and I can forward a copy of those minutes for your records as soon as they are available.

If you have any questions, please give me a call.

Truly yours,

Andrea Sullivan
