Your interpretation is correct. It's very confusing and it will be changed soon – will send you the shapes when that happens.

Thanks,

Attached are two files covering the area I have a question about. The black & white one shows how the streets in the Slayton-Highland area have been drawn in the past. The color one shows my interpretation of what I think is going on. I just need to have you confirm my interpretation, next week when you are in the office.

Hi Sara,

We are in the process of readressing woodstock. The town has requested several rd name changes as well. Once I get back to the office next week Ill send you some shapes as well as a copy of the rd name change list signed by the town of Woodstock. There will be a 6 month waiting period before the new rds names and #'s become effective. Add 1-2 months of work that Pete and I have left to do - we're looking at 7-8 months from now. I will keep you posted.

Angus

I am working on this year's map of Woodstock Village and am confused about the alignment and naming of the roads in the Slayton Terr and Highland Av area. You said earlier this year that you were

planning to do field work in Woodstock. Did you, and is there a possibility you could share your road centerlines for that area? I just need those specific roads, plus one possibly named Carbonneau PI in that area.

Thanks.
